BIOGRAPHY

KiTé is a Lagos-born singer-songwriter and producer, raised around live musicians and shaped by **Accra's highlife** and live culture.

As MisterKay he built an audience across Lagos and Ghana, writing with The Cavemen and Efya and growing with The Hause. The new name comes from his given name, Adekite: a conscious choice to bring more of himself into every record. He is producing more of it himself now, with the guitar at the centre, making music centred on feeling, reflection and storytelling.
